

With a Healthy Start™ at CareMore, The Future Is Now

We are a different kind of health care!

Visualize the future where technological advances and personal assistants would help manage every aspect of life.

The future that combines innovation with common sense and health care that focuses on the whole person.

That Future is now!

Welcoming you as a new patient

First, our team wants to get to know you at your Healthy Start! The more we know, the more we can be an advocate in your healthcare journey, assuring that nothing slips through the cracks.

Think of our clinicians like highly trained detectives, taking the extra time to look deeper into your healthcare information to help identify potential problems before they start.

CareMore will work with you to create a personal care plan that launches you to a new level of wellness! All of the information we collect from your Healthy Start™ visit will be shared with your personal doctor so that we can work closely with him or her to keep you healthy.

“

The Healthy Start was exactly what I needed. I had access to the right resources to support my journey to an active and happy lifestyle. ”

— Elliot B.

In addition to the wonderful care you get from your Primary Care Provider (PCP), CareMore is here to provide:

- Full evaluation of health and family history
- Help in navigating your health plan to make the most of available benefits
- An extra layer of support for urgent care needs and managing chronic care conditions
- Guidance on medication
- Extra care, support and time with a dedicated physician who is connected to every phase of your health

We look forward to working with you, your personal doctor and anyone else who helps you with your healthcare needs. Together, we can help you stay healthy and enjoying life.

Welcome to the Future!
